

# NEW GOVERNMENT, SAME LAW! WHAT CHANGES FOR MIGRANTS?

**The new Monti government is making various promises:**

- #To grant citizenship to children born in Italy of migrant parents.
- #To increase the time allowed by the permesso di soggiorno to look for work.
- #To retrieve the tax on the permesso di soggiorno established by the previous government.

**For now these are only declarations given to the press, that leave migrants in a situation of uncertainty, hope and fear. In this economic crisis, our only really certainties are:**

- # That the Bossi-Fini law and its contratto di soggiorno per lavoro produces more and more exploitation, precarity and clandestinity.
- # That many migrant women, arrived in Italy for family reunification, have been forced to return to their countries of origin along with their children because the family income was insufficient.
- # That any tax on the permesso di soggiorno, even a lower one, would still create enormous difficulties, because the renewal costs are already very high, because of the Poste.
- # That, while citizenship is being spoken of, the children of migrants finish high school and find themselves facing the blackmail of the contratto di soggiorno per lavoro, and as a consequence the risk of clandestinity and expulsion.

**In consideration of upcoming initiatives towards the first of March, we want to discuss these issues together because we know that there will not be important improvements without the direct participation and protagonism of migrants. We invite all to:**
