

# **MACERATA, FLORENCE: NEVER AGAIN!**

One month ago six migrants were shot in the streets of Macerata. Two weeks ago Idy Diene, a Senegalese migrant, was killed in Florence. Last October, in Bologna, gunshots have been fired in front of the reception centre in Via Mattei against an Eritrean operator and an asylum seeker.

**It's time to say stop! It's time speak out against racism which puts our life in danger!**

**We, migrant women and men, are here to build a better life.** We fight everyday against racism, the blackmail of the residence permit, the denial of the right of asylum, exploitation in the workplaces, and poverty.

**But now our own life is in danger: we didn't come here to be killed in the streets!** This is why now it's time to take to the streets of Bologna and speak out against racism, violence and exploitation! For Idy Diene and for us all!
